

OUR STRATEGIC PLAN

The Programmes

Each of our four programmes demonstrates our commitment to tackling the big issues that affect our 31,000 students and our accountability to the entire student body.

In each of the programmes we have challenged ourselves with the following questions:

- *What will be different?*
- *How are we going to measure success?*
- *What are we going to deliver?*
- *Who are we going to partner with?*
- *Do we need to lobby or campaign to create change?*

(All statistics featured within our plan are taken from our Express Yourself research 2014.)
